

The logo for AGD, featuring the letters 'AGD' in a bold, white, sans-serif font with a blue outline, set against a dark blue background.

AGD Equipment Limited

A large orange crawler crane is shown in a construction setting. The crane has a long boom and is mounted on a tracked chassis. The number '643' is visible on the side of the crane's body, and the 'AGD' logo is also present. The background shows a clear blue sky with some clouds and a construction site with dirt and some structures.

**CRAWLER CRANES AND
PILING EQUIPMENT**

SALES • RENTAL • SERVICE • PARTS

AGD EQUIPMENT LTD

Specialising in crawler cranes, telescopic crawler cranes, mini cranes and piling equipment we are constantly evolving to meet the demands of our customers. A family owned business with a wealth of experience spanning over 40 years where building and maintaining long term relationships is the key to our success.

Not everyone understands our equipment like we do which is why we are on hand to help you with any technical assistance. Our knowledgeable team can quickly identify which machine is right for your application.

Tracking that extra mile!

If you need more support when planning your job just ask one of our sales team to arrange a complimentary site visit. We can meet with you to discuss your requirements in detail and help you to identify the right machine for your project.

PARTS, SERVICE & PAINTING

When it comes to repairing and refurbishing equipment we have over 40 years' experience maintaining our own hire fleet to an exceptionally high standard. At our custom built facility we are able to offer our customers complete machine rebuild and refurbishment in an efficient and cost effective way.

When your equipment is down we understand only too well the negative impact this will have on your business. Our nationwide service engineers can support you as and when you need from their fully equipped mobile workshops.

We have a highly skilled and innovative workforce with a wealth of industry experience who are able to carry out:-

- **Design services**
- **Heavy and light metal fabrication**
Mechanical, electrical, and hydraulic repairs and rebuilds
- **Preparation and repainting**
- **Modification and adaptation of all types of construction equipment and cranes**
- **Fitting of attachments such as piling hammers and leaders to excavators**
- **Equipment examination and testing - we have our own test weights and employ competent persons and crane rated capacity indicator engineers**
