# Our company - Competencies

- + Our „ALL-IN-ONE“ concept, combining Research, Design & Development, Manufacturing, Sales & Service and Product Testing forms a solid foundation for a rapidly growing, impressive product portfolio.
- + We are committed to use high quality raw and semi materials. We select our suppliers in accordance with our mission statement.
- + Hard materials, such as tungsten carbide, have to precisely meet our demanding expectations. Grade composition and microstructure are customised for the applications in scope.
- + Over 90% of our raw and semi material origins from Central Europe

# Our company - Quality

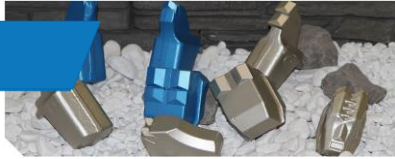

- + ISO 9001:2015 certified
- + Strict rating of our suppliers according to our high standards
- + Ongoing quality assessment of our products, as well in the field
- + Ongoing qualification of new technologies as well as continuous product improvements
- + Every employee and supplier is responsible to deliver quality
